

ASHOKA VISIONARY PROGRAM

EMPOWERING A NEW GENERATION OF LEADERS

WHY

The Ashoka Visionary Program is a pioneering leadership program for Ashoka Fellows, decision makers and leaders of change from the corporate world, the public sector and civil society. The program helps develop and support new leadership styles, new organizational as well as business models, and a renewed sense of mission or social entrepreneurship.

WHAT

The 9-month long part-time program includes 7 modules and offers the possibility to work either with a social entrepreneur or to develop a new social venture. Participants gain access to Ashoka's 35 years of experience of working with leading social entrepreneurs, corporations, the finance industry and public institutions in order to address the world's most pressing societal issues in unprecedented ways.

WHO

- Executives from the public, private, non-profit sector and civil society
- Social entrepreneurs
- Corporate Sustainability Managers

HOW

Participants of the Ashoka Visionary Program are equipped with the skills to increase both their entrepreneurial success and their social impact. The interactive program was run three times in Central Europe and was attended by more than 75 high-level participants. They are supported to address society's challenges while simultaneously achieving economic value and impact for their organizations and target communities.

VISION

Empowerment of pioneering executives to initiate and accelerate social projects. We aim to start a movement which solves societal problems at grassroots level in an entrepreneurial way.
